PROFILE SUMMARY

Full Stack Developer with hands-on experience in building responsive and dynamic web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Proficient in HTML, CSS, JavaScript, and React for creating clean and interactive user interfaces. Developed and deployed a full-stack project similar to Airbnb, a real time chat app, demonstrating skills in front-end development, RESTful APIs, user authentication, and web hosting. Strong understanding of version control (Git), and agile development. Committed to continuous learning and delivering high-quality code.

WORK EXPERIENCE

WeatherSit3

JUL 2025 - PRESENT

Full-Stack Developer [View Project](#)

- Designed and deployed a fully responsive weather web app using the React.js integrating real-time weather API data to provide detailed forecasts and analytics.
- Implemented dynamic UI updates, user-friendly error handling, and weather-based animations, resulting in improved engagement and usability.
- Optimized responsiveness and SEO, and deployed the app on Netlify, ensuring cross-device accessibility and fast load times.

The Talk App

JUN 2025 - PRESENT

Full-Stack Developer [View Project](#)

- Built a real-time chat application using React, Node.js, and Socket.IO with authentication, and user verification features.
- Developed responsive layouts for mobile and desktop, improving user experience and interaction flow.
- Ensured secure backend communication and implemented features like logout and verified badges to boost user trust.

Wanderlust (Airbnb Clone)

OCT 2024 - DEC 2024

Full-Stack Developer [View Project](#)

- Built a full-stack Airbnb-like web application using Node.js, Express, and MongoDB, enabling users to register, log in/out, and securely list rental properties.
- Implemented user authentication and authorization, allowing only verified users to post listings, leave reviews, and manage bookings.
- Designed and structured RESTful APIs and integrated form validation, session handling, and dynamic routing using EJS templates.
- Ensured secure access control and enhanced user experience with feedback mechanisms like success alerts and error prompts.
