Education

Dr. A.P.J. Abdul Kalam Institute of Technology, Tanakpur

Bachelor of Technology in Artificial Intelligence & Machine Learning

Aug 2024 - Aug 2028

Tanakpur, Uttarakhand

Relevant Coursework

- Data Structures
- Database Management
- Web Development
- Artificial Intelligence
- Machine Learning
- Object Oriented Programming
- Operating Systems
- Computer Networks

Projects

CivicFlow | MERN Stack, Google Gemini Vision API, Local Storage, UI/UX Design

December 2025

- Led our team as Tech Lead to design and build a full-stack civic issue reporting platform within 30 hours
- Enabled citizens to capture real-time images of issues and automatically analyze severity using Gemini Vision AI
- Reduced manual paperwork and incorrect department routing through automated workflow
- Implemented responsive UI/UX and rapid prototyping using browser local storage
- **Winner – TiE Global AI Impact Regional Summit Hackathon (₹75,000 cash prize)**

Evora | MERN Stack, Real-Time Tracking, Admin Dashboard

November 2025

- Built a civic-tech platform encouraging citizens and students to report issues and adopt sustainable practices
- Developed Admin Dashboard for monitoring reports, user activity, and system analytics
- Implemented live vehicle tracking for real-time operations monitoring
- Designed incentive-based eco-points reward system to increase participation
- **Top 5 Winner – ITDA Uttarakhand Hackathon; felicitated at Raj Bhawan (₹50,000 + Tablet)**

EMS-AKIT | MERN Stack, JWT, Cookies, RBAC, Authentication & Authorization

August 2025

- Developing institute-wide event management system used for registrations, approvals, and announcements
- Implemented secure authentication using JWT, cookies, and role-based access control (RBAC)
- Built protected admin and student dashboards with authorization middleware
- Designed PWA architecture for mobile-first experience
- **Planned as official platform for institutional event operations for my institute**

The TalkApp | MERN Stack, Socket.IO, WebSockets

July 2025

- Developed real-time messaging application to understand WebSocket-based communication
- Implemented instant messaging, typing indicators, and online user presence
- Designed responsive UI for mobile and desktop devices
- Built basic authentication and session handling
- Learned low-latency system design and real-time data synchronization

Technical Skills

Languages: Python, C, HTML/CSS, Javascript, SQL

Tools & Platforms: Git, GitHub, Postman, VS Code, Netlify, Render, Cloudinary

Core Concepts: Data Structures & Algorithms, OOP, MVC Architecture, System Design Basics, Authentication & Authorization, Deployment & Hosting

Leadership/ Extracurricular

Student Activity Council

Vice-President

November 2025 - Present

Dr. A.P.J. Abdul Kalam Institute of Technology, Tanakpur

Hackathon Competitor

5x hackathon winner

August 2024 - Present

Dr. A.P.J. Abdul Kalam Institute of Technology, Tanakpur

Learning

August 2024 - Present

Studying Machine Learning fundamentals including data preprocessing, model evaluation, CNNs, RNNs, and Natural Language Processing
